

Accounting for Retailers

FREEDOM
ACCOUNTING GROUP
UNLOCK YOUR POTENTIAL

"Establishing and running a retail shop is both demanding and challenging. Apart from the usual small business compliance issues of GST, BAS and PAYG you have to contend with extended trading hours, inflated rents and seasonal trade. The GFC and the explosion of on-line trading combined with a strong Australian dollar have changed the retail landscape forever!"

Ryan Gleeson - Partner

Whether you sell clothes, shoes, computers or liquor in your retail shop, having an accountant who understands your retail business can mean the difference between survival and success. Over the years, the team at Freedom Accounting Group have mentored a number of retail shop owners through the various stages of their business life cycle from start up right through to sale. We offer you experience, technical tax knowledge and marketing skills that set us apart from traditional accounting firms.

Thinking of Starting or Buying a Retail Shop?

If you are looking to start or buy a retail business there are numerous issues to consider. As a business start-up specialist we can provide you with a comprehensive checklist of start up expenses broken down into categories including leasehold improvements, shop fit out, IT, marketing and signage, equipment and trading stock. These figures then automatically feed into an integrated cash flow budget to help you identify your start-up finance requirements. These figures can then slot into your business plan.

Accounting for Retailers

"We are so much more than just tax accountants. We are 'business and profit builders' who offer your retail business marketing strategies and financial solutions. We genuinely care about your business success and we service a number of retailers within our accounting practice. To get your retail shop off to a flying start or to grow your existing business, call us today on (02) 6021 0335."
